

PLANTS ADD **Pizazz** TO YOUR PARTY...

AND SPECIAL EVENTS

Florida abounds with special events of all kinds...weddings, parties for every possible reason to celebrate, fairs & festivals, charitable events, and more.

Just when you think you've thought of everything for your *special occasion*, it might occur that a touch of **GREEN** is just the thing for that subtle finishing touch.

Imagine how the natural look of *live* Palm Trees accented with Tropical Plants and Lush Ferns will enhance the look of your event.

Here's how . . .

Invite Us To Your Next Party!

*Live plants provide many benefits to all kinds of events. What does **YOUR** event need?*

* **Tents**...create intimacy, cast intriguing shadows, hide the hideous, guide and protect guests AND freshen the air with Lush Palms and Tropical accent plants

* **Ballrooms**...sometimes bigger than we need, but the addition of strategically placed plants creates an intimate space for your special guests. Frame your Sweetheart Table with a lush and lovely tropical backdrop. After all, you **are** the guests of honor!

* **Tradeshows**...kick it up a notch for your exhibitors by creating an inviting environment for them AND their prospective customers. With all the sensory stimulation of a tradeshow, live plants will soften things up. Studies show that customers **linger longer** around living plants.

* **Fair and Festivals**...who would think anyone would notice the trash receptacles and dumpster? Detract from unsightly views with live plants.

Live Plants Can Enhance Any Theme...or *Create One!*
